

A great romance story that captures a love that is pure and everlasting. Change the way you feel about love with Just Friends, a pure romance novel by Sumrit Shahi. Download it now for free, and start reading! This was a very good book where the protagonist falls in love with someone close to her but doesn't realize what's going on until it's too late. I loved how this book made me feel so much emotions from every character especially from our protagonist Harleen because she literally loved everything loved by everyone around her thinking they were just friends but was nothing more than just friends to them. This book changed my perspective on what real friendship is and how just being a friend can be fake which can mess up your feelings. It made me realize that not everyone is like Harleen, to be kind and help other people even if it's the last thing you will do. Overall, this book was just fantastic! By Akansha Srivastava This book is really great.It shows how real love can be. I just loved the story.Really an amazing book to read.....Thank you for this book.... By Anushya Goyal \*\*\*\*3.5 STARS\*\*\*\* This book was a nice sweet romance story.It carries a lot of emotions from the characters.The author has nicely written the real emotions of all the characters and that makes this book a highly special one to read. It is a love story between a boy and a girl who don't know it yet,and she never realizes that she is in love with him until it's too late.It captures your heart from the very first page itself, keeping you hooked till the last page. You will be looking for this book in your hands when you are done reading it.The way it portrays friendship really good. I would recommend this book to everyone who likes romance and friendship between a girl and a boy. By Eunkyung This is an amazing book that I read because it's about how everyone can be friends with someone without realizing that's more of then the other person. the family of the main character are really good but you can tell how they think Harleen is boring.Harleen is always bored of herself but she doesn't know why she does. her sister is really mean towards her for no reason at all,even though her sister cares about her more then herself at times I still think both of them are really mean to Harleen because they keep on making fun of her for no reason at all.. By Melakiya This book could not end to soon. it was amazing and i don't know what to say. I would really like to read more books like this one and I can not believe that I got this book for free (but if you do want to buy the book, it is worth it!)....this is a really good book for anyone who likes romance and drama. It is a very good story about girl who doesn't know anything about love and how you can fall hard for someone without knowing it. The part where she finds out (before the person knows about her feeling) was kind of sad but just as sad as when she finds out that he doesn't feel the same way about her.
